

Network Consultant - WLAN

Role Summary

Title	Network Consultant - WLAN
Location	London, Crewe
Job Type	Permanent, Full Time
Years of experience	4+ years
Education Level	Bachelor's Degree
Career Level	Experienced (Non-Manager)
Salary	GBP 40,000 - 50,000 per year 10% bonus scheme, pension, life assurance

Develop your WLAN network consulting career with a proven Cisco Gold, VMware, EMC and Microsoft Partner.

Block Solutions is a dynamic technology solutions business that has achieved consistent annual growth year on year since 2005, servicing clients ranging from City based finance houses to large public sector organisations. Our core expertise is in Data Centre, Collaboration and Network Systems.

In the WLAN space, we have designed and delivered some of the largest (>2,300 APs) and most innovative WLAN solutions within the UK Public Sector, including Cisco's most accurate WLAN-enabled RFID solution in the UK (accuracy <2m).

We are currently seeking a Network Consultant with significant experience in designing, deploying and optimising large-scale Cisco solutions, focusing on Wireless solutions. Responsibilities will span the entire project lifecycle, from bid through to delivery, with a focus on billable consulting work. These include:

- technical input into Bid Documentation, RFIs, RFPs, and where relevant attending prospect meetings;
- design and delivery of wireless network solutions at UK customer sites;
- responsibility for key document outputs within the PRINCE2 framework (high-level and low-level designs, network assessment documents, etc.);
- knowledge transfer to colleagues and customers;
- 3rd level operational support for key customers when necessary;
- input into the ongoing development of innovative NW and Security solutions;

The candidate must be qualified to CCxP level as a minimum, and be able to demonstrate that their experience and skills reflect this level of qualification. The candidate will already have gained experience in designing and deploying enterprise Cisco WLAN solutions and must have a demonstrable track record of career progression to date. Fundamental to the role is an excellent understanding of Cisco wireless technology (please give clear examples within your response).

The candidate will be able to work responsibly at client site without supervision, under his/her own initiative and at times leading small teams of more junior engineers, have a determined approach to solving problems and must have excellent customer facing and documentation skills. Due to the requirement for constant oral and written communication with customers, **excellent spoken and written English language skills are essential**, and this should be demonstrable from your application. Examples of previous documentation in English will be requested during the selection process. The ideal candidate will have an IT or Engineering related degree.

This is a great opportunity for a dynamic, enthusiastic individual to join a fast-growing Cisco partner based in London and Crewe, with excellent earnings potential.

To apply for this position, please send a CV and covering note to careers@block-solutions.net. Please note that we can only guarantee a response to successfully shortlisted applicants.
